TURNING IMAGINATION INTO REALITY

INTRODUCING PETSHURE® FROM BALCHEM

The name PetShure may be new to you,
but our products and capabilities won't be.

PetShure is a new line of specialty nutrients, functional ingredients and unique sensory inclusions created by Balchem to meet the technical and innovation challenges of the pet food industry.

Balchem is the world's largest producer of choline, supplying the highest quality forms of the nutrient for the animal feed, human food and pharmaceutical industries.

We have deep roots in the food ingredient business, having spent the last 50 years developing innovative approaches to solve the food industry's processing challenges.

We provide the expertise and capabilities to create products that redefine entire categories.

Although you won't see our name on retail store shelves, Balchem is an important part of many of your favorite food items. We put the "pop" in self-rising refrigerated dough, we put the "rise" in your self-rising pizza crust and we add "pizzazz" to everything from instant cappuccino and ice cream to meal kits and meat snacks.

WITH PETSHURE, WE'RE OPENING NEW POSSIBILITIES

What if you could...

- ▶ Create new products that deliver the pet parent experience and fulfill the animal's needs.
- ▶ Overcome difficult processing challenges without impacting formulations.
- ▶ Exceed consumer expectations for quality and sustainability.
- ▶ Deliver innovation that distinguishes you in your customers' eyes.

Quality you can trust.

Nothing is more important to you and your customers than quality ingredients from a supplier you can trust. For more than 50 years, Balchem has earned that trust across multiple industries.

You can count on the PetShure products to continue the tradition of excellence with the following certifications and quality assurances:

AAFCO-Compliant* | **SQF*** | **FAMI-QS*** | **Safe Feed. Safe Food.***

*May vary by product and manufacturing site.

PRODUCT OFFERING

CHOLINE

- ▶ Non-grain, non-GMO
- ▶ Quality you can trust

“ As pet owners ourselves, we know how it feels to want the very best nutrition for our companions. All of us on the PetShure team are dedicated to making a measurable difference in the health and lives of companion animals. This is what we do and how we live, everyday. ”

THIS IS BALCHEM

At Balchem, we are committed to making the world a healthier place by delivering trusted, innovative, and science-based solutions to the nutrition, food, sterilization, and energy markets. We provide the service, quality, and technology that enables our customers to win with their customers. We have built a reputation for delivering results to all of our stakeholders.

Balchem has built four business platforms:

Animal Nutrition & Health

▶ Applying proven science and industry-leading technologies to meet the nutritional needs of animals, providing for greater health and performance.

Human Nutrition & Health

▶ Enhancing your dining pleasure through unique sensory experiences and delivering high quality nutrients that bring living to life.

Industrial Products

▶ Supplying environmentally friendly clay stabilizers to the oil field industry, reducing the amount of pollutants used in wells to ensure a cleaner, safer environment.

Specialty Products

▶ Providing the industry with technologies to sterilize items as diverse as medical devices and food items, ridding them of bacteria, fungi and insects that can cause health problems and complications.

Our specialized teams of scientists, nutritionists and engineers bring passion and dedication to their chosen trades and real change to each industry.
