Z-Crisps[®] and Z-Texx[™]
*Extruded and Texturized Protein
Product Information*

Extruded and texturized products made with a variety of plant and dairy-based proteins.

Z-Crisps® can be used as-is or added as an ingredient to boost protein and provide texture in products. They are great way to add or increase protein in snack bars or even as a topping on ice cream and yogurt! Z-Texx™ makes a great base for meat alternative products.

This product guide outlines the full ingredient statement and product size of each product to help a formulator determine the best option for their application. Let's create something wonderful!
